Career Cruising

Career Cruising is a self-exploration and planning program website that helps people of all ages achieve their potential in school, career and life. It's goals are:

1. Build Self-Awareness
2. Explore options
3. Create a plan
4. Make it real

The Career Cruising product **ccSpark!** has been carefully designed to help students acquire early career development concepts and foster critical thinking skills, through an age-appropriate approach to National Career Development Standards.

Each student has an account set up with the username of LRSD. They are given a student number and a preset password. If you do not have a login for Career Cruising, please contact Julie Hutchinson at hutchinsonj@lrzd.ab.ca

The Learning Partnership: Entrepreneurial Adventure

The [Entrepreneurial Adventure](#) Program is a hands-on entrepreneurial journey for students in Grades K-12. It is designed to develop students' enterprising spirit, financial literacy, innovative thinking and social responsibility. To date, these student business ventures have raised \$2.9 million for charities!

Entrepreneurial Adventure helps develop Canada's next generation of entrepreneurs by teaching essential 21st century skills, such as marketing, business planning, team building and the importance of social responsibility. Together with teachers and volunteer business mentors, students from kindergarten to Grade 12 develop innovative business ventures that raise money for local, national and international charities.

Parent Guardian Support

Parents or guardians, can greatly influence your child’s achievement, appreciation for lifelong learning, and the realization of their potential.

Parents can read books like ***Today I Feel Silly*** and ***Other Moods That Make My Day*** by Jamie Lee Curtis; ***Boom...Boom...Boom ...: A Story to Raise Your Child’s Emotional Intelligence*** by Marsha Jacobson; or any other book or video about feelings their child may be experiencing. Take breaks to talk about the characters’ experiences.

Visit new places: a museum, library, science center, community festival, or art gallery regularly with you child—the list is endless!

The goal is to explore and expose the child to different subjects, ideas, and possibilities in order to help them learn what interests and excites them. The parents can discuss with the child their support systems and how it’s a good to know when to ask for help and who their support network is. Encourage the child to turn to a friend, family member, or trusted adult like their teacher when they need help and you’re not around. Discuss with your child how much time they spend online, playing video games, or watching TV.”
