ANTICIPATED CHANGES IN ACCUMULATED OPERATING SURPLUS (SUPPLEMENTARY DETAIL) for the Year Ending August 31

The following provides further explanation of the anticipated changes to each component of AOS for the 2015/2016, 2016/2017, 2017/2018, and 2018/2019 years as outlined on pages 5 and 6. Please provide information on the acquisition of significant unsupported capital, non-recurring project expenditures, and intended use of funds as at August 31, 2019. Note that unrestricted surplus, operating reserves, and/or capital reserves should include the jurisdiction's contingency nexpected or emergent issues.

ditional detail on uses of Accumulated Operating Surplus:

2015/2016

Provide an explanation of material changes from the budget originally submitted in the spring of 2015 for annual operating surplus (deficit), capital acquisitions, endowments, and/or other changes affecting unrestricted surplus, operating reserves, and capital reserves.

The orignal budgeted operating deficit was (\$1,022,340) and the forecast is to have an operating deficit of (\$337,589) for a difference of \$684,751. It is estimated that schools will use \$1,094,507 of their operational reserves however due to a mild winter and moving to in house grounds keeping the POM anticipates a \$300,000 surplus. Also technology evergreening that was budgeted for was moved into the 2016-2017 school year.

Capital will be close to budgeted amount

2016/2017

Please provide additional detail regarding uses of Unrestricted Surplus, Operating Reserves, and Capital Reserves not described on pages 5 and 6.

An increase from \$300,000 to \$415,000 for the capital purchase of buses is required to ensure no disruption of services.

The unsupported amortization amount of \$99,035 for copiers is being put into capital reserves for evergreening in 4 additional years.

The planned deficit recognizes the increase in costs and decrease in revenues to transistion during a time of enrolment decline.

NOTES:

1) Enrolment is to be completed WHEREVER APPLICABLE and are 'as at September 30th' for each year.

2) Budgeted enrolment is to be based on best information available at time of the 2016/2017 budget report preparation.

3) The # of FTE grade 10-12 students is determined by taking the total # of students' credits / 35; where 35 CEU's = 1 FTE.

4) Other Grade 1-12 students that are not eligible for base instruction funding from Alberta Education include First Nations students living on reserves for which tuition fee payments are made from Band or AANDC (Code 330), students younger than 5 1/2 or older than 20, and out-of-province and foreign students.

5) Because they are funded separately, Home Education students are not included with total net enrolled students. In the blended program, funding per student is pro-rated on the percentage of the student's program which is taken at school and at home; home education students are assigned a weighting of 0.25 FTE for base funding.
