

# WCCHS FLIGHT ACADEMY

## Set your sights on becoming a pilot!

With the WCCHS Flight Academy, high school students earn high school credit as they develop the knowledge and skills to prepare them for a private pilot's license after graduation.

Grade 10 — Flight 15 (3 credits), \$3,500

Grade 11 — Flight 25 (3 credits), \$4,000

Grade 12 — Flight 35 (3 credits), TBD

Fee includes certified instructors, materials, and flight simulator time.

WCCHS Flight Academy is a full-year program, meeting from September to June each Friday for 3 hours of instruction from 9am to 12pm at CFI Flight Academy in Claresholm.

Flight Academy students participate in aviation-based field trips, learn to fly using simulators, and earn 5 hours towards the ability to write the private pilot's license (PPL). Students who complete all 3 years will receive a \$3,000 credit toward their PPL training with CFI after graduation.

"It elevated my entire high school experience!"

Haley Vandenberg,  
Flight Academy Student

International students welcome!
