

UPCOMING PRESENTATIONS

March 29, 2023 – 7:30 pm Talking to Your Kids About Sex

As parents we know it's our job to provide our children with the knowledge and guidance they need, but what do they need to know and when do they need to know it? Give me some actual words to say! How can we protect our children from sexual abuse? Come for some great ideas on how to equip your children to deal with their own sexuality, and the bombardment of sexual messages in our culture. Recommended for parents of children 0 – 12 years

What parents have said:

"I finally feel ready to have these "uncomfortable" conversations with my children. My perspective has changed, and I feel now confident and motivated."

"I feel so much more empowered and confident to talk to my kids about this topic without getting embarrassed myself. I definitely want to be the person they continue to flood with their questions - I want to help them figure it out instead of finding it from much less reliable sources or just not learning enough, as I feel was the case for myself growing up. We did not talk about any of this!"

April 26, 2023 – 7:30 pm Porn-proofing Your Kids

Our kids are growing up in a world where an abundance of free, on-line pornography is available to anyone with an electronic device. This easy access and the potential harm of exposure raise concerns about children's health and well-being. Internet porn didn't used to be a thing, so it's hard to know how to protect our kids! At this presentation, Tami Buroker will answer questions like: What's the harm in watching porn? How can I prevent porn exposure for my kids? What if my kids have already seen porn?

What parents have said:

"This was very informative on a subject that I had no idea where to start with my kids. Thanks."

"One year's worth of information summarized for me, so I didn't have to do all the work with my full life as a mom, and that it was FREE to access this very powerful and valuable information!! Also, Tami is a very exceptional presenter, and really gets plenty of info out in a relatively short time."

"It was so well done. It didn't water down the material and truth, even the really hard parts ... It helped me to know that I CAN help my children in this area."

"Tami just did such a fantastic job. This topic of discussion is beyond needed and I am so grateful to know that these conversations are being had. Thank you, thank you, thank you."

May 24, 2023 – 7:30 pm Talking to Your Teens About Sex

Teens are facing a complex world of sex, relationships, STIs, shifting gender norms, and porn that is more accessible than ever before in history. And though they may not think so, they still need your guidance and support. Talking with teens about sex may not be comfortable, but when you have the right tools, you can equip them to better navigate these challenging waters.
