

LIVINGSTONE RANGE SCHOOL DIVISION

# What if? Letting Go of the Past to Reimagine the Future of Assessment

## Deeper Learning, Generative AI, and the Road Ahead

Divisional Professional Learning Session for Teachers and Administrators

Our schools have many valuable traditions and time-honoured practices. That said, our job is to prepare students for their future, not our past. As Alberta's curriculum continues to shift to deeper learning, skills and competencies, schools are re-imaging assessment. This keynote will challenge educators to think outside the box, consider different ways to assess, and realize we can't do it all. We'll have to be prepared to let go of something in order to grasp something else.

PLUS! Could AI help teachers engineer environments rich with inquiry? What are ways we might redesign assessments with and without GenAI?

**27 AUGUST 2025**  
**W.A. DAY SCHOOL**

**Arrive: 8:30am**

**Session: 9:00am-3:00pm**

**Bussing and lunch provided**

**► Bring a charged laptop**

**BYO**  
water bottle  
& coffee mug
